

Ready, Set, **LEAP**

Empowering Learning from
Day One

TEACHTOWN®

Decodable Readers = Fluency + Confidence + Engagement

Build foundational reading skills with new decodable readers! Decodable readers are carefully written texts that use only the letter-sound relationships (phonics), and sight words, a student has already learned. This means every word in a decodable reader can be 'sounded out' or read by sight, reinforcing decoding and word recognition skills and building confidence.

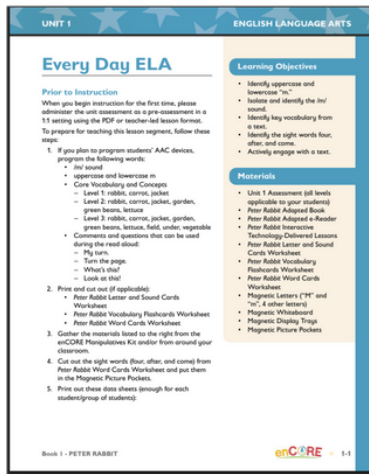

Decodables are located in Units 4 - 36, with **2 decodables per unit** (1 per lesson plan) for the initial rollout. Upon the full release, each unit will include 6 decodable readers (3 per lesson plan), offering increased opportunities for fluency and comprehension practice – all aligned with the Science of Reading.

Each Reader Comes With

- PDF Format
- e-Reader Format
- Vocabulary Support
- Sight Word Flashcards
- Comprehension Questions

enCORE Elementary ELA: New Lesson Segment & Structure

Explore a refreshed lesson segment structure in enCORE Elementary ELA, now aligned with the consistent, linear format used across other content areas and grade bands, making planning and navigation easier than ever.

Also new with enCORE Elementary ELA is **Everyday ELA**, a brand-new segment that integrates daily instruction in sight words, phonics, vocabulary, and daily book reading, all rooted in the Science of Reading for daily support in foundational literacy skills.

LEARN MORE

Introducing The TeachTown Chronicles

Bring current events to life in your classroom with *The TeachTown Chronicles* – a **weekly, student-friendly periodical** designed to complement enCORE Events and deepen real-world learning.

Each edition builds background knowledge of timely news stories, supports comprehension, and encourages thoughtful discussion around age-appropriate news stories. Available in *Primary and Secondary Versions* to meet the needs of students across K-12.

Spanish Resources for enCORE Elementary

Educators can support a range of learners, including students with moderate to severe disabilities from Spanish-speaking families, by using enCORE Elementary's Spanish-language resources.

All adapted library books in enCORE Elementary are available in **Spanish** at all 3 levels across multiple formats, including **hard copies, printable PDFs, e-Readers, and book read-aloud videos.**

Each book also includes **Spanish-language resources** such as:

- Worksheets
- Vocabulary flashcards
- Leveled comprehension activities

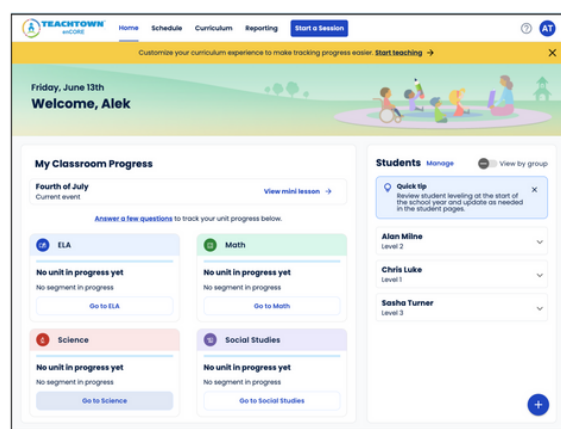

Note: Spanish resources are available via the Advance package.

Access

enCORE got a Glow-Up: A Modern, User-Friendly Experience

The enCORE platform now features a fully modernized interface, making it easier than ever to navigate, teach, and stay organized.

- **Personalize your view** to see only the subjects and grade bands you teach, such as just High School Math or Elementary ELA and Social Studies
- View **lesson segments one at a time** for smoother instruction
- **Track curriculum progress** as you teach

Assistive Technology Scanning for Student-Led Tech Lessons

With a brand new scanning technology to the TeachTown platform, enCORE is accessible to any single-switch device on any operating system.

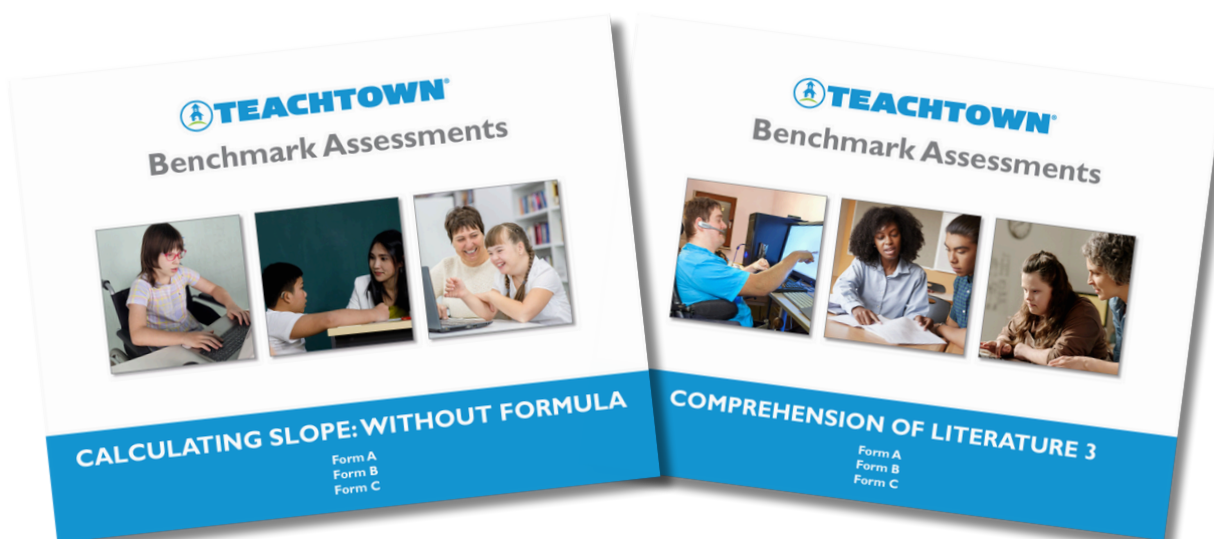

- ✓ Adjust response time settings
- ✓ Scannable lessons included in each student's recommended lessons
- ✓ Filter for scanning-compatible lessons in the Curriculum tab

Visit the [Resource Center](#) to explore our [brand-new, self-paced professional development course focused on Assistive Technology](#) with practical guidance on integrating assistive tech tools with TeachTown solutions.

Progress with Measurable Outcomes
