

Transforming Insights Into Impact

enCORE's Comprehensive Data Solution

We know that data is the cornerstone of effective instruction for complex learners. TeachTown's K-12 adapted core curriculum, enCORE, includes a comprehensive suite of data tools and features that transforms every student interaction into actionable insights.

Benchmark & Unit Assessments

- **Benchmark Assessments:**
With over 300+ assessments across ELA, Math, Science, and Social Studies, teachers can monitor progress on skills over time and demonstrate growth.
- **Unit Assessments:**
Identify growth from pre-test to post-test on learning objectives aligned to state standards within a unit. Additional reporting available for administrators for holistic academic insights.

Progress Reporting

- **Administrative Oversight:**
Access admin-level data to determine teacher effectiveness and identify trends across subgroups within a district.
- **On-Demand Reports:**
Professionals can run detailed reports at any time to analyze raw scores, percentages, and item analysis.

Automated Data Collection

- **Technology-Facilitated Lessons:**
enCORE's responsive technology lessons automate data collection based on student response and adjust rigor to individualize learning pathways. Monitor student progress with ease!
- **IEP Goal Integration:**
Teachers can input specific student IEP goals directly into the system and assign lessons tailored to those goals.
